RECEIVED AT SILVER SPRINGS BY HIS PAMILY AND A FEW FRIENDS-HE IS LOOKING WELL AND SENDS BEST WISHES TO HIS PRIENDS IN WASHINGTON.

LOR SALE-FOUR SPLENDID BUILDING LOTS, Grace Shepherd, Mr. W. Pierce Bell and him that Governor Shepherd was on the train and requested the major to see the Baltimore and Ohio officials and have the train stopped The train was fifteen minutes late, but when it slowed up a whe station the well-known form and features of fex-Gov. Shepherd were visible as he stood on the car platform.

> ALIGHTING FROM THE TRAIN. As the train came to a stand still, Mrs. Shepherd pushed by the Governor and alighted first. She extended her hand to the Governor to assist him in alighting and the conductor offered his assistance. but the Governor showed that he did not require any assistance. With a hand resting lightly upon his wife's shoulder he stepped down to the depot platform. In an instant his two daughters were in his arms. He greeted them most affectionately, and he then turned to his son, saying: "Come here, you great big boy, how you have grown." He hugged his son and then grasped the hands of his our mend, Mr. Bell, giving him a hearty shake, which made it apparent that the governor is no invalid.

A HORRIBLE ACCIDENT. Three Men Killed by an Explosion of

Molten Metal. CHICAGO, July 16 .- A horrible accident occurred Ashland and Archer avenues, by which three men are likely to die. The men were engaged in pouring not iron into a mold that was damp, when the metal flew and seared them dreadfully. They were taken to the county hospital, and the physicians deciare their recovery is out of the question. Two of the injured are Poles and the third a The particulars of the accident are as follows: A large casting was to be made, and the preparations had been completed by a night shift of men. The ladle by which the moiten metal was to be carried from the mouth of the blast furnace to the mold had been freshly plastered by one of the night men without any adequate idea of the early nour at which operations were to commence this morning. At 5:30 o'clock this morning the ping was picked out of the furnace spout and a lava-like rush of white-hot metal took place. It was a large melt for a big casting, and besides the men who had business around that seething cauldron others were grouped admiring the scintillating sparks that flew from the bubbling stream. All at once there was an upheaval in the ladle. An explosion had taken place in the lower part of its capacious interior. In a moment the hot metal was spreading itself over the heads and faces and bodies of on-lookers and workers alike. The water in the fresh plaster had generated steam and a miniature botler explosion with maximum dust and molding sand on the floor was forced into the air and gave the outside world the impression of a great fire. But there was no fire and hardly any damage to the building to speak of; but a dozen men lay groaning in agony when the blinding cloud had subsided. The police and uninjured men formed a rescuing party, and quickly three o

the worst hurt were on their way to the county PANIC IN AN ORPHAN ASYLUM.

The Children Awakened to Meet Thick Smoke and Unknown Terrors. New York, July 16 .- An hour before daybreak a fire broke out at St. Joseph's Asylum at 80th street and Avenue A. The main building was ablaze and the colony of children within in an uproar. The outbreak had occurred in the basement. Nearly two hundred children, the full complement of the institution, were asleep within its walls. The sisters in charge, who throughout the scene of terror and confusion that followed struggled with great heroism to preserve order and to facilitate the work of rescue, aroused the sleepers promptly and sped them on their way to the street. The thick smoke and unknown terrors that beset their way threw them into a panic however, and the sisters A roundsman soon came to the rescue and with his aid the building was soon cleared and the children directed to the police station in 88th street, where they were marshaled by the sisters. None were missing. Herbert Batze, aged nine, was severely burned in escaping. His clothes caught fire and his face and limbs were badly scorched. The hook and ladder company reached the asylum as the last of the children were emerging on the street.
Shrieks were heard from an upper story, and three
female attendants were found to be imprisoned
on the third floor. They had not dared to follow the children down stairs. Ladders were thrown up to the window, and Capt. Jos. Shaw and Roundsman Weise carried them down. The girls were Christina White, Euzabeth Hainesshmake and Josephine Dreferbach. They were overcome with terror, but uninjured. The firemen made short work of the fire. It damaged the building to the extent of \$2,500. How it broke out is not known. A few weeks ago the asylum had a fire scare. Some clothes caught fire in the cupola on the roof, and one of the sisters had her hand burned. This fire caused but little damage. St. Joseph's Asylum is in charge of the sisters of Notre Dame. It supports, educates and employs orphans and homeless and neglected children, especially of German birth, until the age of sixteen, when they are set to work to take care of themselves.

Whims of the Paris Mob. Paris, July 16.—On the night of the fete some persons who were riding in cabs were compelled to alight by the mob in the streets. Those who declined to do so were forcibly removed from the vehicles. A hostile demonstration was made at the German embassy in Bordeaux, and windows were broken in the office of the local government organ.

Torrid Times in Chicago. CHICAGO, July 16.—The weather continues intensely hot. The temperature yesterday ranged from eighty-four at 8 a. m. to 95 at 2 p. m. The thermometer at 10 a. m. to-day recorded 88, and bids fair to eclipse yesterday's record. Five deaths from sunstroke were reported here up to 11 o'clock this morning.

PRESENT SOBRANJE.

Constantinople, July 1d.—Russia has replied to the circular note in relation to the Bulgarian question issued by the porte. The reply states that while there is personally no objection against Prince Ferdinand as prime ruler of Bulgaria, Russia declines to accept the decision of the present sobranje. Germany, Austria and Italy reply that they will accept any solution of the question which is based on the Berlin treaty.

THE ENIGHTS TAKE A HAND IN BEHALF OF BALTI-

Philadelphia, July 16.—In the warfare against and canned goods, such as breadstuffs, milk and canned goods, the Knights of Labor have also joined, beginning a crusade against the evilswhich result from the improper packing and soldering of preserved fruits. An official circular has just been issued from headquarters by the authority of the executive board, addressed to all the local assemblies of the order, calling attention to the fact that the present low scale of wages paid to can-makers, cappers, and processors is the result of frauds practiced in labeling goods and the cheap and deleterious liquid fluxes used in machine soldering. The plea is made for handmade cans in behalf of the Can-makers' Mutual Protective Association and Assembly 1384, of Bal-Protective Association and Assembly 1384, of Bal-Protecti MORE CAN MAKERS. Protective Association and Assembly 1384, of Baltimore. The members of the order are requested to purchase goods packed only in hand-made cans.

Counting the Cash. LOOKING OVER THE ACCOUNTS OF DISBURSING OFF

CERS. By direction of Acting Secretary Thompson, an the four disbursing officers of the Treasury Department, was begun at 9 o'clock this morning with a count of the actual amount of cash sold by each. As far as the count has progressed this afternoon everything has been found all right. No previous notice of this examnation was given. A similar examination was held to-day of the books and accounts of the disbursing office of the Interior Department.

Use Short Pen-Handles.—A man cannot write rapidly or gracefully with a long-handled pen. The reason is that in describing the curves of the various letters the long handle must describe similar curves, and the longer the handle the more sweeping the curves. In writing, the thumb and foreinger act as a fulcrum. The pen-handle is the lever. Now it stands to reason that the longer the lever the slower will be its motions. That is a lever the slower will be its motions. That is a law of natural philosophy, and yet many men will persist in using long pen-handles. The proper length for a pen-handle is about an inch longer than the index finger.

The Commission closes its record upon this matter with a paragraph of more general interest, as follows: "A practice thus to anticipate by motion the final hearing the Commission did not think advisable and would not therefore favor. To the petition the defendant company apswered eventing its fetture. fendant company answered, excusing its failure to furnish cars during the time specified by complainant, and averring that the company had now procured an additional number of cars, so that it was believed there would hereafter be no difficulty in handling its business promptly and without

AN ANOMALY IN CRIMINAL LAW .- It is a singular thing that the laws in force in this District put a premium on murder, and if a man assaults man with intent to kill and fails to kill him he is not so well off as he would be if he succeeded, This was brought to the notice of Judge Montgomery this morning in the case of Wm. Lancaster, convicted of manslaughter, and the court expressed surprise that for manslaughter there was no minimum of sentence, but for assault with intent to kill two years in the penitentiary was the lowest punishment prescribed.

It is wonderfully inspiring to hear a bird sing as he mounts heavenward, yet with the skylark (dare I say it?) the first feeling of the listener is

apt to be one of disappointment. For the quality of tone and the character of particular notes is And therefore as long as the Mohammedan religion lasts, so long will the harem exist. And its existence is, on the whole, a happy and contented one, in spite of all the reasoning which may be brought to show that it ought to be miserable. what engrosses the attention at the outset, and singers whose notes are equal to these. He can even name several whose voices surpass this new voice from the Old World. But do not insist too much upon tone quanty. Wait and listen. The song grows upon you. You wonder where any creature can find the power to sing so rapturously and continuously while mounting into the sky. ance. This is truly the joy-song of a brithe spirit The skylars is is not a ringing song, nor is it very difference in this respect when the singer is on the ground. Then the notes sound not much more than half as loud. It is probable that the bird sings louder when flying, the sensation of rising into the air and of coming down again stim-ulating him to more vigorous expression. Many harsh. The notes are more rapid than a warble, and they are not a trill. The loudest notes I heard are like the last two notes of our meadow

A MAINE JUDGE'S METHOD OF DECIDING A QUESTION OF MOBALITY IN ART.

A Portland, Me., special, July 9, says: "The nude in art" question came up before Judge Gould, of the Municipal Court, this morning, and for a time the rather gloomy old court-house was transformed into a picture-gallery. A score or more of fine naintings and of reproductions of the most important actions ever taken in New York city with reference to foreigners and Sunday laws occurred last Thursday night when delegates from 100 German societies banded to gether to secure a repeal of obnoxious Sunday laws. Whether candidates for the legislature at the next election will receive the support of Germans in this city will depend very largely on the position they take in reference to the objection.

Undoubtedly our negro societies will form the basis of the present league. You can't begin to know how ready our people are for this movement. All our organization wants for its success is that it should once get fairly started."

> Lord Lorne's Restive Horse, From the Paris News. The restive horse Thunder, that threw the Mar-

quis of Lorne during the royal procession on jubilee day, was sent to the "Wild West" to be ridden and tamed by one of Buffalo Bill's Indians or cowboys.

In drawing lots as to who would first "tackle the flery untamed" fortune favored Arizona Jack, who successfully sprung into the saddle-and stuck there. When he worked his raccachas upon the bucking animal Thunder thought lightning had struck and looked for-lorn.
